Best Practices**

RCM HealthCheQ helps health centers quickly improve financial processes & performance

Improve your RCM and financial performance with a hands-on approach that leads you to quick wins and early results in less time. Our experts provide specific expertise for the difficult workflows for community health centers that need a simple route for optimizing RCM policies, procedures, workflows, and results.

Our clients have reported improved outcomes that have allowed them to invest back into their staff for greater productivity and focus on patient care.

“Canton was instrumental in facilitating our RCM Revitalization Project. They helped establish healthy processes, develop policies, and provided workflow and education to our staff. Our health center has increased revenue by 34%.”

Ami Cotharn, MSN, RN
COO, Coastal Health & Wellness

Keeping up with the complex demands of value-based care requires greater sophistication in RCM strategy and execution. The community health RCM experts at Canton & Company will provide you invaluable perspective and champion your next best moves.
